Article 2

Course objectives and target audience

The course aims to provide the theoretical basis for acquiring and understanding the management of marine resources in the context of the valorization of the side-streams derived from them. In particular, the course focuses on the several economic, environmental and social challenges, which are now affecting the fish and fishing industry with the aim of developing and evaluating multilevel, replicable, circular, socio-economic and sustainable strategies, interconnecting the "Blue economy" and the "Green Economy".

The course has the following learning outcomes:

- To understand the methodological and scientific basis of the "Blue circular economy".
- To understand the methodological and scientific basis in the field of food and environmental sustainability.
- To understand the regulatory framework related to the use of side-streams from the marine environment in food and cosmetic applications.
- To understand the logistical challenges of the "Blue circular economy".

The course is addressed to university students, graduates, PhD students, researchers interested in the relevant topics and operators in the sectors.

Preferential qualifications for the admission to the course: the course are open to candidates holding following Bachelor's Degree: LM06 Biologia, LM07 Biotecnologie agrarie, LM08 Biotecnologie industriali, LM09 Biotecnologie mediche veterinarie e farmaceutiche, LM13 Farmacia e farmacia industriale, LM17 Fisica, LM21 Ingegneria biomedica, LM22 Ingegneria chimica, LM26 Ingegneria della sicurezza, LM31 Ingegneria gestionale, LM32 Ingegneria informatica, LM35 Ingegneria per l'ambiente e il territorio, LM41 Medicina e chirurgia, LM42 Medicina veterinaria, LM48 Pianificazione territoriale urbanistica e ambientale, LM54 Scienze chimiche, LM56 Scienze dell'economia, LM60 Scienza della natura, LM61 Scienze della nutrizione umana, LM69 Scienze e tecnologie agrarie, LM70 Scienze e tecnologie alimentari, LM71 Scienze e tecnologie della chimica industriale, LM73 Scienze e tecnologie forestali e ambientali, LM74 Scienze e tecnologie geologiche, LM75 Scienze e tecnologie per l'ambiente e il territorio, LM79 Scienze geofisiche, LM82 Scienze statistiche, LM/SNT4 Scienze delle professioni sanitarie della prevenzione.

The Management Committee reserves the right to admit candidates with different qualifications based on the curriculum vitae and the acquired experiences.

Article 3

Course structure and contents

The course consists of 160 hours of training, divided as follows:

- 58 hours of on-line lectures
- 102 hours of self-paced learning

The course grants 5 ECTS credits.

Educational program:

Module	SSD	CFU	Teaching and monitoring hours	Individual study hours
LEARNING OUTCOME				
Blue circular economy	IUS/21, BIO/05, BIO/11, AGR/20, BIO/07, BIO/03, ING-IND/24, CHIM/06	2.25	22	42
Food and sustainability	ICAR/03, ING-IND/25, BIO/09, CHIM/10, SECS-P/03, SECS-P/08, MED/49 , SPS/07	2.25	20	38
Regulations and logistics			12	22
Preparation of the project work		0.5	4	

The Course will be held from October 2023 to May 2024.

Attendance structure: two sessions per month, each session lasting 4 hours. Attendance is mandatory. To access the final test and receive the certificate of attendance, it is required to participate in at least 80% of the total course hours.

The course will be held in English.

Location: e-learning platform: www.teworkspace.net

Art.4

Assessments

An intermediate test will be administered at the end of each module, to gauge participants' understanding and skills, ensuring the effectiveness of the course. and to obtain corresponding ECTS credits.

At the end of the classroom phase, students in compliance with the formal and substantial aspects (passing all intermediate exams, documentation, attendance, etc.) will be called to take a final exam that can attribute the candidate a grade out of 110.

Article 5

Submission of the application form

The application form must be submitted by September 19, 2023 at 12:00 PM, according to the Enrolment procedures available on the webpage servizionline.unige.it/studenti/post-laurea/corsiperfezionamentoformazione/domanda

The application submission date is certified by the computer system. Once the deadline for submission has passed, the computer system will no longer allow access to the application platform, and submissions will no longer be accepted.

Upon the first access, it is necessary to request the UniGe credentials, by clicking on "User registration" link. Once you have obtained the credentials, you will be able to access to the application page.

All applicants are asked to provide the following documents, in pdf format, according to the online procedure:

- Copy of a valid ID (Identity Document– Driving License - Passport)
- Curriculum vitae.

Candidates holding a foreign degree:

If the qualification has not already been recognized as equivalent, the applicant must request its equivalence solely for the purposes of the competition, submitting the further following documents in addition to those aforementioned:

- A Declaration of Value issued by the Italian Embassies or Consulates of the country in which the degree was achieved

the translation of academic qualification legalized by the same representation in the case that Italian Embassies or Consulates has not proceeded to provide this documentation on time for the application submission, candidates are instructed to attach all available documentation to their application. It should be note that any provision of equivalence will be adopted on the condition that the legalized translation and the "declaration of value" are submitted within the deadline set for enrollment in the courses by the admitted candidates. The release of the aforementioned documentation and of residence permit for participation in any selection tests and for attendance of the course to foreign citizens is governed by the note from the Ministry of University and Research relating to the procedures for student access foreign visa applicants for higher education courses for the AY 2023/2024.

Under the provisions of the Decree of the President of the Republic 28th December 2000, No. 445 (DPR 445/2000), individuals who submit false documents or make false declarations can be subject to penal sanctions, according to Article 76 of DPR 445/2000. In cases where the legislation on substitutive declarations (DPR 445/2000 and subsequent amendments) is not applicable, the candidate still assumes civil, administrative and criminal responsibility for the declarations issued.

The Administration reserves the right to carry out the checks and inspections required by the provisions in force. Candidates who make false statements will automatically lose their enrollment. Additional administrative and/or criminal sanctions may be imposed in accordance with current regulations.

The University Administration assumes doesn't hold responsibility for any loss of communications resulting from inaccurate indications of residence and address information provided by the applicant. Additionally, the Administration is not liable for any delays or

failures in communication regarding changes of residence or address. Furthermore, the Administration is not responsible for any postal or telegraphic issues that are not attributable to the fault of the Administration itself. The maximum number of candidates who can be admitted to the course is 50 students. The minimum number for the activation of the course is 15.

The Management Committee will assess the feasibility of reducing management costs to align them with the level of income, to ensure that the Course's financial sustainability is maintained. The admission of candidates will be made on the basis of the order of registration and the evaluation of the curriculum.

The list of admitted candidates will be published by the Department of Earth, Environmental and Life Sciences on <https://distav.unige.it/node/997> by September 25, 2023. The publication of the list of admitted candidates is to be considered as official communication. Individual communications will not be sent to candidates.

The University may adopt, even after the publication of the admission ranking, measures of exclusion against candidates without the required requisites.

Article 6

Method and registration fee

Candidates admitted to the entire Advanced Training Course must complete the enrollment according to the online procedure available on servizionline.unige.it/studenti/post-laurea/confermaPL, by clicking on "confirm post-graduate enrollment" and choosing the Course whose enrollment must be confirmed by September 26, 2023 at 12.00 PM.

Registration for the course is free. Admitted candidates must pay the € 16 for virtual stamp duty. within the aforementioned deadline on www.studenti.unige.it/tasse/pagamento_online through:

- PA pay service
- Banca Popolare di Sondrio services.

It is not possible to make any payment by bank transfer.

Pursuant to art. 8, paragraph 3 of the Regulations for Students issued with D.R. no. 1218 of September 16, 2014, the stamp duty will not be refunded under any circumstance, except in the event that the course fails to commence (art. 37 of the Presidential Decree of October 26, 1972 n. 642)

Candidates who fail to complete the registration process within the deadline the specified timeframe, they are considered to have voluntarily withdrawn from the course.

Article 7

Issuance of attendance certificate

At the end of the Course, participants who have fulfilled the obligations and completed the required activities, as determined by the Management Committee, will receive a certificate of attendance. The certificate will be issued by the Course Director. It is important to note that this certificate does not represent an academic qualification, (art. 8 of the Regulations for specialization, professional updating and permanent training courses and courses for first and second level university masters).
